# Volim - Egg Pasta

## ITALIAN TECHNOLOGY & OUR SKILLS

VoLim egg pasta is made from wheat semolina and eggs, with the necessary addition of water. It does not contain flavor enhancers, additives.

The pasta dries slowly in order to relax and digest it more easily. Also, slow drying significantly shortens the cooking time (3-5 minutes).

**Slow dried pasta** → reduced cooking time, easier digestion.

**Bronze-cut** → rougher pasta structure → sauce stays on top of the pasta, not at the bottom of the pan
